OUR COMPANY MISSION

SPECIALISING
IN HYGIENE
AND CLEANING
PRODUCTS

“

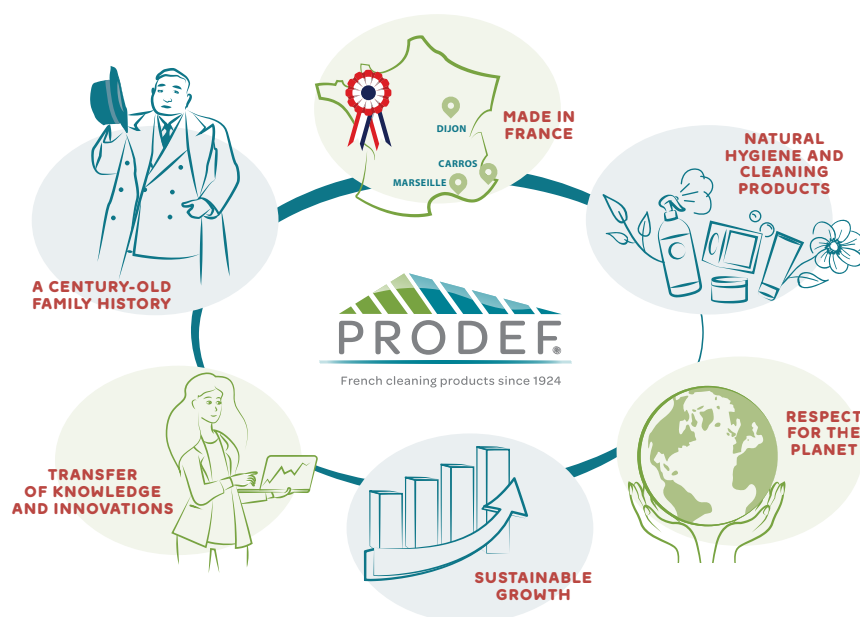

True to its century-old history, the PRODEF family group designs and manufactures natural and effective hygiene and cleaning products in France, allowing everyone to benefit from a healthy living environment while respecting the planet's resources. The group's various production sites, committed to their region, are building their sustainable growth with a medium- and long-term vision. They combine the transmission of artisanal know-how with technological innovation.

Collectively driven by a spirit of conquest, the PRODEF group aims to be, both in France and abroad, a showcase for our country's quality and know-how.

”

Respect for this company mission and the principles it involves will ensure that suitable resources are allocated to implement and develop the group's activities, at all levels.

This mission will therefore be inseparable from the pursuit and improvement of our CSR approach, at the service of our employees, with the goals of preserving the environment, adopting transparent and efficient corporate governance, and taking into account our stakeholders' interests.

French cleaning products since 1924

PRODEF group

The PRODEF (" **P**roduits **D'**Entretien **F**rançais", French cleaning products) group is a family SME specialising in the manufacture and sale of hygiene and cleaning products.

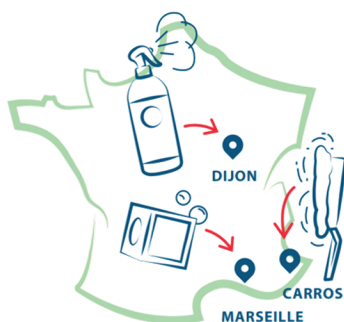

Created in 1924, this **family-owned French** group has been run by the same family **for four generations**.

First generation
Raoul Nordling

Fourth generation
Guillaume Fievet

Following in the footsteps of the founder, Raoul Nordling, Swedish consul and industrialist, his nephew Raymond Fievet took over the management of the PRODEF group. His son Jean Fievet then took up the reins in the late 1970s. Guillaume Fievet is now continuing this entrepreneurial adventure.

Favouring manufacturing in France: our DNA

Three ISO 9001 certified establishments

Manufactures and markets
ECOCERT-certified traditional
Marseille soap, cosmetic soaps
and cleaning products in one
of the oldest soap factories in
Marseille.

Manufactures and markets
conventional and ECOCERT-
certified detergents and
disinfection, hygiene and
cosmetic products.

Manufactures and markets
wiping and cleaning products.

These three sites with
complementary activities and
know-how allow PRODEF to offer a
wide range of products and allow
you to benefit from our **expertise**
in professional and consumer
markets.

Compagnie du Midi, Savonnerie du Midi and Hygiène &
Nature boast the following label:

**ENTREPRISE ÉCO-RESPONSABLE
ET CITOYENNE**
Contrôlée par un organisme indépendant
www.entrepreneursengages.org

OUR RANGE OF SUBCONTRACTING SERVICES

Subcontracting and custom work

Our business is to develop, design, produce and package cleaning and hygiene products intended for cleaning professionals, specialist distributors, communities, industries, individuals and mass distribution.

Our expertise with our own ranges gives us keys for subcontracting for distributors or major brands by adapting our formulas, fragrances, packaging, etc. to develop the products you want.

***Our desire is to create partnerships
with our customers:***

- by proposing solutions tailored to their specifications and development strategies,
- by meeting and anticipating regulatory requirements,
- by preserving the environment.

Design

Research & Development

Based on your specifications, our laboratories and Quality Managers work together to design, formulate, carry out stability and compatibility tests, and submit prototypes to you.

The choice of raw materials and collaborative work with our suppliers are essential to offer you innovative and differentiating products (fragrances, active ingredients, etc.).

Placing on the market and regulations

Our knowledge of certification bodies and competent authorities, in particular for ecological labels and biocidal products, guarantees that you benefit from certified and/or approved formulas that can be quickly marketed, either by you or by our regulatory department. This department is in contact with each customer and ensures that products comply with stringent, constantly changing French and European obligations (REACH, CLP, Regulations relating to cosmetic products, detergents, biocides, etc.).

Design of labels

Our teams provide you with labelling advice if necessary and are familiar with the constraints related to your business in terms of responsiveness.

Choice of format and packaging

We have a wide range of formats available – bottles, cans, caps, spray triggers and stamps – and can access our suppliers' catalogues, to find packaging that will make your product truly unique.

Production

Our production sites comply with Good Manufacturing Practice (GMP). Our manufacturing tanks and packaging lines including palletising are managed by qualified operators who guarantee product hygiene and quality.

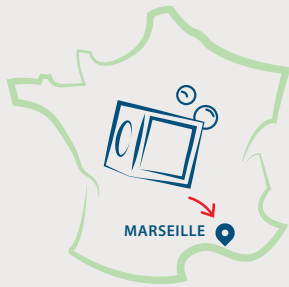

Storage

Our sites allow us to store raw materials, packaging items, labels and finished products, thus ensuring responsiveness, inventory management, control of storage conditions and product traceability.

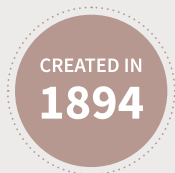

SOLID SOAPS

SAVONNERIE du MIDI Marseille 1894

Ask for the logo registered by the Union of Marseille Soap Professionals:
<https://www.savon-de-marseille-traditionnel.fr>

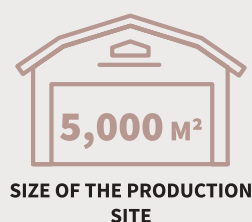

Founded in Marseille in 1894, Savonnerie du Midi is one of the **last historical soap factories in Marseille** that still perpetuates the recipe and know-how of traditional Marseille soap. It is a **founding member of the Union of Marseille Soap Professionals**.

With a rich history, this factory is located at the bottom of Carnes Valley, in the Aygalades district in the 15th *arrondissement* of Marseille (Bouches-du-Rhône).

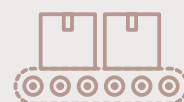

Savonnerie du Midi is **ISO 9001:2015 certified**. It is strongly **committed to its region** (employment, reception, participation in community and economic life). **It was awarded the state *Entreprise du Patrimoine Vivant* (Living Heritage Company) label**, which recognises **rare know-how and excellence**.

LIQUID PRODUCTS

HYGIENE & NATURE was born in 2009 from the merger of several companies specialising in the design, development and manufacture of hygiene and cleaning products, in particular the company PFC SA (Pettens France-Chimie), created in 1926, and the company Netflore.

The site is based **near Dijon** (Côte-d'Or) and is **ISO 9001:2015** certified, a sign of value for our customers that applies to the design, marketing and **manufacturing of eco-friendly products and methods**. We work on a daily basis to improve our flagship products and enhance our ranges through research and development programmes, in particular for disinfectants and ecological products.
